- Minimum 1GB RAM
- Minimum 80GB Hard Drive.
- Operating System: Microsoft(R) Windows 7 Professional with latest windows updates.
- Minimum Internet Bandwidth 2Mbps
- Dot Net Framework 3.5 SP1 recommended

### **Download Application**

- Go to Extranet FTP by typing the following URL on your browser (<ftp://121.241.2.20/COMMON/NOW/Mock>)
- Enter the username as **ftpguest** and password as **FTPGUEST**
- Download '**NOW-V.1.14.3.0\_Now\_Launcher.zip**' file to your desktop.

### **Installation Procedure**

Ensure that the below steps are followed prior to login to NOW Exe version: 1.14.3.0:

1. The following files / folder shall be available on Unzipping the **NOW-V.1.14.3.0\_Now\_Launcher.zip** file:
  - A folder by name "**NOW-V.1.14.3.0\_Now\_Launcher**"
  - NOW\_Start\_up\_kit\_NSE\_BSE\_Commodity\_1.0.pdf
  - UserSetting.ini
2. Copy the **NOW-V.1.14.3.0\_Now\_Launcher** folder specifically in **C:\Program Files [not Program Files (x86)]** folder of your machine.
3. Copy the Usersetting.ini file provided in the zip file and paste it in the **C:\Users\<PC domain name>\AppData\Roaming\Omnesys\NestTraderNow** folder before invoking the NOW Exe.
4. Right click on the **NOWLauncher.exe** and go to **Properties**. Tick **Run this program as an administrator** in the **Compatibility** tab. Then click on **Apply** and **OK**.
5. Click on **NOWLauncher.exe** from the **NOW-V.1.14.3.0\_Now\_Launcher** folder and select **Mock\_Session** and then click on the "Start NOW" image.

### **Note:**

- The NOW Exe version 1.14.3.0 shall only be used for NSE and BSE Commodity Mock Session.
- Post completion of Mock session, delete the newly copied folder **C:\Program Files\NOW-V.1.14.3.0\_Now\_Launcher**.
- After deleting the new setup folder, login with the existing NOW setup which you are using on a daily basis.
